

Wipak[®] ML P

Providing Excellent Performance

Wipak® ML P

Providing Excellent Performance

Wipak® ML P is high performance packaging material for medical devices with sharp edges. It can provide you down gauging possibilities compared to common films. Intended for EO sterilization.

Technical Details

- Coextruded PP/PA/PE film
- 50-150 microns

Applications

- Sealable with uncoated and coated papers
- Ideal for packing devices with sharp edges
- Syringes, needles, catheters
- For EO sterilization

Benefits

- High puncture resistance and mechanical properties enable down gauging with yield benefits
- Non-curling symmetric structure and high clarity for high performance devices
- Excellent formability, runnability and cutting properties gives room for optimization of packing processes
